

**Abrasion Maintenance Kit**  
FOR USE ON FRAC SAND DELIVERY UNITS

*Patent Pending*  
#13507870

**Wear Plate Hatch**

Includes a rubber barrier that withstands sand abrasion much longer than traditional steel plate. The hatch bolts down and holds a pressure plate against the rubber barrier for a complete seal. Allows for replacement of the rubber barrier from the roof of delivery unit.

**"ELIMINATES CONFINED SPACE ENTRY"**

**Fill Tube Guide**

Directs and holds the fill tube in place and eliminates the need for a bracket inside the bin. Allows for replacement of the fill tube entirely from outside the bin.

**"ELIMINATES CONFINED SPACE ENTRY"**
